

Health & Hygiene

April 4, 2010 @ Karachi Expo Centre

Hygiene standards remain woefully low around us, reflected in the high incidence of infectious diseases that not only have the potential to severely undermine the quality of our lives, but even to end lives prematurely. These Infectious Diseases are like Diarrhea, Influenza, Skin Cancer, hair Loss, AIDS etc

Conference on Health & Hygiene is an awareness event incorporated with Health Asia Exhibition with an objective to bring in light the after effects of Ordinary acts which can be minimize by simple preventive measures in our Daily Lives. The Conference will also be an interesting and interactive platform for those who are eager to know the upcoming products available in the market that can be helpful to play a role for making the lives healthy & fit
