If Pakistan is to play its proper role in the world to which its size, manpower and resources entitle it; it must develop industrial potential side by side with its agriculture and give its economy and industrial basis. By industrializing our State, we shall decrease our dependence on the outside world for necessities of life; we will give more employment to our people and will also increase the resources of the state.

On the occasion of laying the foundation-stone of the building of the Valika Textile Mills Ltd. on 26th September, 1947 www.quaid.gov.pk/speech08.htm
We believe that the development of Health & Pharma Industry is vital to achieve the long-term goals and thus the Government has a greater emphasis on growth of healthcare and pharmaceutical sectors of Pakistan. The government is incorporating preventive health care in all health policies, strategies and plans since it is the most cost-effective approach in reducing the burden of disease and ensuring a healthy population. We are also working for the uplifting of the pharmaceutical sector to enhance exports, and the Health Ministry shall take necessary measures to enable the Drug Regulatory Authority of Pakistan to meet WHO standards.

I would like to appreciate the role and steps being taken by Dr. Zafar Mirza, Federal Minister for National Health Services, Regulations and Coordination, Government of Pakistan for the development and uplifting of Health & Pharma Sectors of Pakistan which are the most important sectors.

I would like to invite the foreign as well as local participants of Health Asia 2019 to explore the immense opportunities available in Pakistan for business & investment. I assure the delegates that the Government of Pakistan will leave no stone unturned to provide an enabling environment that guarantees the security of investment made in Pakistan.

I am pleased to know about the growth of Health Asia International Exhibition & Conferences which is now organized in two (2) mega cities of Pakistan i.e. Karachi & Lahore. Also, I would like to congratulate Ecommerce Gateway Pakistan for conducting such a mega event in Pakistan. Such exhibitions boost the positive image of Pakistan as a safe and secure place for business.

I once again felicitate the Ministry of Health, Government of Pakistan and the organizers of Health Asia International Exhibition & Conferences; and assure full support and cooperation for the success of this event.
The current government is already taking revolutionary steps for improving and promoting health sector which includes health insurance in 48 districts, premium for secondary in-patient treatment of the poor family members, strategic purchasing of health services from the private health sector, establishing new hospitals and major service upgrades are taking place in the existing healthcare setup. Several plans are being created to increase investment in healthcare and in turn create huge number of job opportunities in the sector with an improved working environment for healthcare works both in the public and private sector across the country.

I would like to draw the attention of the international business community towards the government policies aimed at facilitating international and local business communities with a view to attract more and more investment from foreign as well as local entrepreneurs.

I would like to congratulate Ecommerce Gateway Pakistan for conducting such a mega event in Pakistan on this sector. Health Asia International Exhibition & Conferences is an instrumental event for boosting the positive image of Pakistan as well as it plays a vital role in the growth of related industries.

I would like to assure full support and cooperation to Health Asia International Exhibition & Conference for the successful conduct of this mega event.
I am pleased to see the preparations for 17th Health & Pharma Asia 2019 International Exhibitions and Conferences on Health & Pharma Sector being conducted in Karachi. I believe that such exhibitions are important to create a positive image of Pakistan and attract foreign investment by highlighting opportunities to boost the confidence of the international business community.

The Government of Sindh would welcome cooperation of international institutions with regard to provision of best health facilities to the people, capacity-building of the medical staff and introduction of modern technology in the Health Sector and believes that it is of utmost importance for playing its due role in the progress of nation’s economy. Keeping in view the ground realities and local needs, consultants of developed countries should be taken on board for utilization of latest technology. The government and private sector can jointly cope with health challenges, and to ensure the provision of quality medical facilities the Health Department has been promoting cooperation with the private hospitals.

In this regard, I truly appreciate the efforts of organizing committee and core team of Health & Pharma Asia International Exhibition & Conferences for organizing a truly needed event on international standards and assure my full support to them.

I also warmly welcome all participants, visitors, foreign and local delegates to Health & Pharma Asia International Exhibition & Conferences.
Honorable Mr. Imran Ismail  
Governor Sindh  
Government of Pakistan

I am pleased to see Health Asia & Pharma Asia 2019 International Exhibition & Conferences is being organized for the 17th instance in Pakistan. Holding international events in Pakistan is extremely important for portraying the true potential for investment that this country offers to the rest of the world. I personally believe events such as Health & Pharma Asia are very crucial to allure greater investments. These events are also very important for restoring the investors’ confidence in the country particularly in Karachi.

As Pakistan’s economy has made an optimistic turn around recently, the foreign investors can therefore be reassured of a stable environment in Pakistan to carry out business. Consequently, a number of steps taken to improve law and order situation in the city and to expand the city’s infrastructure for facilitation of business and investment.

I would like to welcome all foreign delegates in Health & Pharma Asia International Exhibitions and invite them to take maximum benefit from the business and investment opportunities available in these mega sectors of Pakistan.

I extend my heartiest greetings to the Team of Health & Pharma Asia for successfully organizing the Biggest Trade Fair of this highly important sector for the 17th consecutive edition. I wish Ecommerce Gateway Pakistan (Pvt) Ltd. great success.
It is my immense pleasure to witness the success of the Biggest Health & Pharma Sector Event of Pakistan - 17th Health & Pharma Asia 2019 International Exhibitions & Conferences in Karachi. It offers the right combination of amenities & infrastructure to organize such mega events.

The Government of Sindh is playing its due role in encouraging local and foreign businessmen to make investments in the province. The province of Sindh offers innumerable opportunities for investment in all sectors of economy. The first and foremost priority of the government is to maintain law and order in the province, as a peaceful environment is must for economical activity. Alhamdulillah, security situation in the province, including Karachi, has improved considerably as a result of positive measures taken by the present government; which is evident from the soaring foreign investment. The Government has also initiated a number of reforms in trade, political and social sectors to gain investor’s confidence. Besides, a number of projects are underway to improve the infrastructure of the province to facilitate business and trade.

I commend the efforts and congratulate the organizers of Health & Pharma Asia 2019 for putting up this wonderful effort to showcase the immense potential of the Health & Pharma industry and to enlighten the local and international stakeholders regarding numerous opportunities and huge returns on investments that Pakistan offers to them.

I ensure full support to Ecommerce Gateway Pakistan (Pvt.) Ltd from the Government of Sindh and wish Health & Pharma Asia 2019 tremendous success.
PPMA feels proud to be part of Pakistan’s biggest Pharma Industry Event Pharma Asia 2019 International Exhibition and Conferences in conjunction with Health Asia 2019 International Exhibition & Conferences, which plays a key role in the Pharma & health sectors of Pakistan and endorse the event as official event of PPMA. Although Pakistan's pharmaceutical and healthcare sectors are expanding and evolving rapidly, but still more work needs to be done by the government and industry's stakeholders.

Pakistan Pharmaceutical Manufacturers’ Association (PPMA) caters to the health of public with sincere efforts. The association is proud of the hi-tech, essential and high quality Pharmaceutical Industry that has significance for the country in term of self-reliance to a great extent. The Pharmaceutical Industry comprises more than 400 manufacturing facilities. The pharmaceutical industry manufactures 90% of the finished drugs requirement of Pakistan thus saving huge and precious foreign exchange. PPMA feels strongly about the fact that all its members possess all requisite facilities necessary for the production of pharmaceuticals of quality and comply with CGMP standards.

PPMA has always come to the support of people of Pakistan in the time of need, whether it may be earthquake, IDPs, Floods or epidemic. PPMA has always been in the forefront to perform its social responsibility.

In the end, PPMA would like to extend its heartiest greetings to Ecommerce Gateway for successfully organizing this mega event for the 13th consecutive year.
I, as a President of Ecommerce Gateway Pakistan (Pvt) Ltd. feel immense pleasure and pride announcing the 17th edition of Health Asia 2019 International Exhibition and Conferences in conjunction with 17th Pharma Asia 2019 International Exhibition & Conference. We are grateful to Almighty Allah to bless our team with the strength and quality expertise with which we continue to contribute towards the growth and development of trade and industry, in all the leading sectors of Pakistan, thus strengthening economic condition of the country.

It is worth mentioning that B2B events that are organized by Ecommerce Gateway Pakistan are of such repute & caliber that play a pivotal role in projecting Pakistan as a moderate and progressive country, globally.

I would also like to take the opportunity to deeply appreciate the support of Federal & Provincial Ministries of Health, Pakistan Pharmaceutical Manufacturers Association (PPMA), Pharma Bureau of Information and Statistics, Pakistan Society of Anaesthesiologists (PSA), Radiological Society of Pakistan (RSP), Friends of Cardiac Surgery (FCS), Dow University of Health Sciences (DUHS) and all the government departments/ bodies for their contribution in organizing the 17th Health Asia 2019 and the associated Events.

I welcome the foreign and local delegates, investors, entrepreneurs, exhibitors and visitors to the Event and assure you of full cooperation and support from the organizers. I am confident that your visit will be truly productive and rewarding.

Last but not the least, I would like to congratulate the core team of Health Asia Exhibition & Conferences for their contribution to organize this event on such big scale as well as making this event truly a grand success.

Phytocon International (Pvt.) Ltd.

A State of the art Manufacturing Facility
In Compliance with Latest cGMP and ICH Guidelines

“Phytocon International (Pvt.) Ltd” is one of the largest Herbal and Neutraceutical manufacturing company in Pakistan. It is one of the most modern progressive national companies with a powerful combination of skills and resources that provides platform for developing quality medicines in today's rapidly changing health care.

The company is dedicated to provide quality Neutraceuticals & Herbal preparations in Pakistan & other countries. For this purpose a dedicated manufacturing unit has been established in one of the most modern industrial estate of Pakistan i.e. Sundar Industrial Estate, Lahore – Pakistan.

Our facility contains following sections:

- Tablet
- Capsule
- Oral Liquid
- Sachet
- Ointment Creams & Cosmetology

Following products are under manufacturing:

- Antacids
- Cough Preparations
- Diabetic Supplement
- Diarrheal
- Laxative
- Obesity
- Spasmodic
- Appetizers
- Cardiology
- Dermatology
- Female Healthcare
- Hepatology
- Male Healthcare
- Multivitamins
- Neurology
- Orthopedics
- Urology

AAA Foreign Trade Export Platform is the only B2B and B2C parallel medical device export platform in China. It focuses on providing one-stop overseas sales service for Chinese medical device manufacturers, providing the world's medical enterprises with the best quality products, and helping Chinese medical device manufacturers to solve the problems of export, sales and promotion. The aim is to promote China's medical devices to the world and build China's first-class brand of medical devices.
COMPANY PROFILE

ABOUT US
ABAMET was formed in 2009 with the objective of establishing a sustainable and continually improving engineering and construction company which was able to provide predictable and quality constructions to our clients while concurrently fostering lasting relationships with end users, professionals, trade contractors and suppliers.

We are a well-established mid-tier company with an exceptional skill base undertaking design, supply and construction projects throughout Middle East and Asia.

As treatment plant contractors and designers, ABAMET is well equipped to undertake the most technical constructions and to direct and manage the works from design to handover. Whether you require the construction only or you require a full design and construct package, we can manage the process and deliver you the finished product. We undertake the majority of our works in the $100,000 to $5,000,000 range.

We pride ourselves on the success and diversity of our construction projects. From domestic applications through to industrial effluent plants, we understand the importance of the specific requirements of each of these projects and of clients and strive to achieve above and beyond all expectations. We have identified some of our projects to enable you to have a better understanding of our capabilities (see the file “Selected References”).

PRIMARY LINE OF BUSINESS : WATER AND WASTEWATER
TREATMENT
AdChem is established with the original purpose of Marketing, Distribution and Brand Development of group manufactured products and affiliated brands globally and regionally.

During a very successful period of business incubation within the Group, AdChem developed its substantial sector specific expertise and established its reputation in the Middle East Region.

AdChem successfully started operations in Pakistan from last 2 years and achieved the milestones with customers satisfaction especially on new molecules, AdChem has vast experience to work in regulated markets so to cater the demand of Pakistan newly upgrades DRAP regulations.

In fact, AdChem proved to be so effective and successful within its internal role. The business has moved into the external market and forward integrated into worldwide distribution channels for brands, which are looking to enter the marketplace.

The company's value system is committed to excellence in delivering quality and customer service by empowering employees, celebrating diversity and encouraging thought leadership, within an ethics-driven corporate culture.

**About Us**
**Advan Pharmachem Co., Ltd.** was founded in 2002 by a team of professionals with more than 10 years' experience. We focus on manufacturing and trading in the pharmaceutical industry.

**Advan** set up its own factory in 2004 as a joint-venture company. It is a new and fast-developing company specializing in the development, production and marketing of Active Pharmaceutical Ingredients.

**Advan's main products include**
- Pharmaceutical ingredients and intermediates (API)
- Formulation products and biochemical agent
- Pharmaceutical machine and equipment and packing products
- cGMP cleaning plant design and engineering projects.

**Advan** Pharmaceutical Machine and Equipment Dept have long been involved in providing high quality and good service to clients for more than 10 years with a breath experience. Advan provided not only machines, equipments, packing material and spare parts, but also installation, debugging, training, F.A.T. and third-party factory inspection.

**Advan** knows how to combine the technical features and strong point of Chinese products with the customer demand by an international business way, to achieve mutual benefits.

Advan has established business link with more than one hundred clients in Asia, Europe, Latin America, Africa and Austria. We are proud of working with our clients in all our aspects.

Mission and Vision

To become pioneer & the customer’s first choice as a symbol of excellence whenever they think of herbs and its extracts. Quality speaks when it comes to ASTC.

The journey of ASTC started in 1989 when legendary founder Late Mr. Syed Qudrat Ali established his small retail herbal medicine shop in Karachi.

We are family owned business proudly operating and serving our customers for last 3 decades or so.

Over the period of time ASTC have grown tremendously in size and expanded its operation from Karachi to across Pakistan.

In 2017 we have decided to take the show into international arena by introducing unmatched herbs & it’s extracts in to exports and established our firm with innovative approach by reinventing us into SYED TRADING COMPANY with an vision & commitment to announce our existence to the world with a BANG in health care through natural herbs.

OUR PHILOSOPHY
We are independent due to our 8micro level expertise in herbs industry, financial strength and technical decisions making independency, we are prompt to respond to our customer’s requirement this gives us time to leverage to better serve our customers locally as well as internationally.

WE ARE TRUSTWORTHY
Loyalty, transparency & healing with feeling our our principal whenever we are in to business commitments we don’t get content with timely success but always look a head of time because of our long term orientation principle.
AL SYED TRADING COMPANY

WE ARE INNOVATIVE
We believe in promoting idea generation and free say in any internal meeting. Employees are part of us we consider them as family are encouraged to present their views both positive or vise versa final laugh is always comes after mutual consensus as we strong believe on team work which should be dream work.

WE SET QUALITY STANDARDS
Quality means ASTC & we don’t compromise on it. To make sure of this we heavily invest in Human resources, R&D & training of expert time to time.

AL-ABD Corporation was established in 1973 as a trading company and an indenting house dealing in food & pharmaceutical industries. AL-ABD has also diversified it's services to industrial flooring in recent years. We have a specialized team of applicators to carry out these services to go along with the updated equipment.

The mass growth of these two segments resulted in diversification & expansion of our scope of supply and we now offer specialized services to food & pharmaceuticals industries and printing & converting industries as well.

By the grace of ALMIGHTY, we are now a well-known name in these sectors and have the privilege of serving many famous brand owners. Adhering to our motto SOLUTIONS ARE OUR WORLD “WORLDWIDE”, We always try to provide the best solutions to our customers under the principle of having competitive prices while maintaining superior quality in compliance with the cGMP requirements. We have constantly focused to the modern needs and requirements and keep a close eye towards the solutions.

We are honored to be your partner and satisfy your requirements from the inceptions of your ideas up to the implementation of your projects.

We would like to introduce AuVitronics as the 'Precision Plastic Experts'.
AuVitronics Limited was established in 1983 as part of 'HOUSE OF HABIB' group.
The group holds various businesses i.e Automobiles to Auto Parts, Building to
Banking & Jute Products to Chemicals, managing the network of Public & Private
companies.

AuVitronics was the pioneer in using modern technology for the production of
audiocassettes. AVT entered the 21st century by diversifying into plastic molding
parts and sub-assemblies in collaboration with world renowned manufacturers.
AVT has three main manufacturing divisions, Automotive, Alternate Building
Material, and Consumer & Health Care (Pharma).

The company has technical assistance agreements with world renowned
manufacturers for meeting stringent quality requirements. Such as

AUTOMOTIVE:
- Koita Manufacturing co.ltd (Japan)
- Cubic company limited (Japan)
- Murakami corporation (Japan)
- Toyeda Gosei Co Ltd (Japan)
- Krauss maffe (Germany)
- Auto Korea (korea)

AVT’S product being supplied to Japanese, Korean & British OEM, speaks
volume of our commitment to meeting international quality standards, strictly
following Toyota production systems, utilizing 5S, Yamazumi, Fish bone, 5 Why,
Quality circles and gate.

PHARMA:

The Pharma division at AuVitronics is working in collaboration with OH SUNG
PLASTIC CO LTD (KOREA).
**Exhibitor's Profile**

**AUVITRONICS LIMITED**

The Division consist of following facilities for EYE DROP, PET & HDEP bottle manufacturing.

**Clean room, Class 100 full downdraft**
- Bio Burden free, no cleaning process required.

**Preform Stetch blow Molding facility**
- High strength with low material
- Part to part dimensional accuracy to ensure leakage proofing

**ETO Sterilization**
- In house ETO sterilization with complete withdrawal of ETO.
- Excellent supplybility

**Electric drive injection molding**
- Precision molding controls
- Ensuring minute details

**Visual measuring Machine**
- 180 x Magnified image monitoring machine
- Pre-detection of defect ensuring 100% quality product
- No need of Product segregation.

Kindly give us an appropriate time for meeting, where we could discuss features and benefits of using our PET, HDEP and Eye Drop bottles.
Leaders in manufacturing of precision plastic parts now offering world class Healthcare Packaging Products.

PET / HDPE / LDPE / PP
Containers for Eyedrops, Syrups and Tablets

Major Features & Benefits to the Customers:
• Eye drop bottles produced under aseptic environment, needs no further sterilization.
• Syrup bottles production under clean room eliminates pre cleaning process at filling machine.
• High quality bottle printing eliminates label pasting after filling.
• Specially designed leakage seal ensures zero leakage, without additional in-cap seal/heat seal process.
• Innovative two piece piller proof seal protects counterfeiting.

Manufacturing under Technical Licence of OHSUNG Korea

Under the umbrella of a very strong & reputable group, product quality & supplyability is ensured, while the use of medical grade plastic is guaranteed.

Established with the goal of becoming one of the pioneers in the field of Bio-Medical Equipment, BIOS has progressed at an exceptional rate in the past 20 years in now one of the leading health care solution providers. With its head office located in Karachi it also covers the market segment in Punjab by having branch offices in Lahore and Islamabad. Today BIOS is supplying a multitude of equipment from over 30 world renowned manufacturers and has corporate contacts, clients and customers throughout Pakistan. This shows the exponential growth BIOS has had during the past 20 years or so with the belief of achieving the impossible if there is determination and the correct attitude. BIOS strives for high quality products and services and firmly believes in the saying that “Sales go up and down but Service stays forever”. Acting and believing in this saying has allowed BIOS to successfully increase its clientele to large numbers and enabled it to always completely satisfy the customers. Our customers include all main Teaching and Non-Teaching, Private and Government Hospitals, Armed Forces Institute (Navy, Airforce and Army), DHQ / THQ and Primary & Secondary Health Care Centers, etc.

COMPANY BRIEF
The company is renowned as manufacture and supplier of best plastic items that are widely used for packing material in various industries, sectors i.e. pharmaceutical, healthcare, beauty aids, chemical, autos, foods & drink etc. we can easily and efficiently offer customized products to various industries in various sizes and designs as per the client choice. Our products are known for the features like design, finish, quality, reliability and long service.

Our Vision
We are constantly searching for innovation in existing and new products because innovations of today will become the standards of tomorrow.

Our Mission
Our main Motto is to develop the advanced plastic packaging materials for our valuable industry experience.

OUR SERVICES
Our services are provided under the superior guidance of our able professionals to achieve higher levels of customer satisfaction in the field of the plastic packaging industry.

Our Product Range
Healthcare companies have unique requirements packaging which can keep the chemical composition of the products intact and do not contaminate the products.

Quality Assurance
The quality of our products and our eagerness for distinguishing is the main aspect of our success and existence. The quality is highly qualified and trained.
Business Links International (BLI) has been one of the fastest growing indenting and Trading Company in Pakistan. BLI aiming to providing quality Processing, Production & Packaging solutions, Pharmaceutical Raw material, Packaging Material and industrial pumps for use in Pharmaceutical, Beverage, FMCG, Food and other Industries all over Pakistan for more than 40 years.

These solutions are based on Europe, USA, Taiwan, China and India Sources. We have been enjoying unflinching confidence of our valued customers ever since. To cater to a growing customer based in Pakistan, BLI is launching Eco-Quality Lines of Machines. We facilitate our foreign principal and supplier to provide and sell their products in Pakistan as they sell worldwide.

Product Line : Pharmaceutical Machinery, Processing Machinery, Labeling Machines, Cartoning, Filling line, Strailizers, Packing Machines,

Company Profile:
Business Tacts International (BTI) is proud to introduce ourselves as a modern indenting house and engineering service provider in Pakistan. We always try to introduce the industries with latest technologies and consumables. Our Mission is to provide Automation to the Industries.

Our products and services are widely used in Pharmaceutical and Food Industries. We are also providing project consultancy to our clients. We have a brilliant team consisting of Mechanical, Electrical, and Mechatronic Engineers, Designers and Managers who work diligently and providing 360 Degree services to our valuable clients including Sourcing Comparison, ROI and after Sales Service in the least possible lead time. BTI is also one of the leading indenting house selling the PP, PE, PVC film and allied packaging material including Ampoules, Vials, Rubber Stoppers and Caps.

Land Mark Project:
• Pakistan’s first Large LVP IV plant with 100% Brand New Machinery
• Vial Filling, Capping and labeling line.
• 100% Automatic Inspection machine for LVP IV
• Fastest Ampoule Inspection machines (350 Ampoules/ minute)
• European Autoclaves (200L, 450L, 1000L & 2000L)
• PFS Lines
• Ampoule Inspection Machine
• Combi Lines for PFS and Insulin Cartridge
• Fastest Labeling Machine for Ampoule
BUSINESS TACTS INTERNATIONAL

Services:
BTI is proud to offer installation and commissioning of the following:

- Dental Cartridge Machine
- PFFS Ampoule Machine
- ISBM Complete Line
- Autoclaves
- Open & Close Mouth Ampoule filling and selling Machine
- Flow Wrapping & Labeling of Iv Bottle
- Ampoules Labeling Machines
- High Speed Syrup Filling Line
- High speed tablet bottle filling and packaging line
- Fluid bed dryer
- Walking Climatic Chamber
- Packaging machine
- Blister Packing Machine
- Vial Filling Line
- Tablet Press Machine
- Cartoning Machines

Additionally we are proud to offer following as well:

- Process designing and installation of manufacturing and process plant.
- Implementation of “Total Productive Maintenance” and “First Line maintenance” in fast pace manufacturing environment.
- Implementation of 5S and lean six sigma in packaging machines
- Implementation of Zero Access Guarding on high speed packaging and processing machines

Customer Trust
BTI is a customer oriented company, always listening to customers’ needs, and providing Automation solutions. No compromise, when customer interest and investment is at stake. The customer is even invited to examine the functioning of the machine before the sale is through.

131 Health Asia - 2019
Fay is family owned company built on ethical principles – honesty, humility, integrity, respect, transparency and trust.

Pakistan’s have turned to Fay Tissue Products for nearly three decades as a necessary part of life. Everyday our products are called upon to enhance the health, hygiene and well being of our families.

The company behind will-known and trusted brands of facial tissue, toilet tissues, kitchen towels, paper napkin and cotton and beauty products.

Fay Tissue Products is now the leading tissue paper, cotton and beauty product supplier in Pakistan.
COOLMAX Group of companies has a vision to deliver world class engineering services & projects in any given environment for the benefit of its Customers, Employees & the Communities it serves. That’s how we create smarter products for our clients by offering our customers the highest quality of HVACR, Pre-Engineered Building and Electrical Solutions, focusing on personalized solutions and convenience.

We provide Modular and Customized Air Handling Units that fulfil the Hygienic requirements of Indoor Air Quality. We provide thermal break aluminum profiles, with polyurethane injected panels. Ensuring the best mechanical and thermodynamic performance standards. With a software based on the laws of thermodynamics and fluid dynamics, we assure the best performance from in-house manufactured heat exchanger coils. Our manufacturing capabilities enable us to conform to any customized client requirements. Using hydro dipped blue aluminum fins and quality copper for superior performance.

We provide optimum control and uninterrupted supply of air conditioning during high ambient conditions. Condensing unit production uses top of the line compressors, controls and refrigerant in the market. Condensing units are designed with the help of a software that relates air flow, refrigerant flow, pressure and temperature differentials to provide a complete solution.
A WIDE RANGE OF
WORLD CLASS
AIR HANDLING
UNITS

shomail.gmp@gmail.com

We are an engineering solutions company, a small but essential piece of the massive life sciences ecosystem. By bringing together our customers, partners, industry thought leaders, regulators and governments we effect greater impact and bring our mission to life.

Our purpose is reflected in our strategy, our approach and our objectives. We consciously evaluate our performance through a broader lens with the 3BL (Triple Bottom Line) approach to creating value – economic benefits to our customers, environmental benefits for a greener planet and social benefits to people everywhere.

Fabtech is a global Engineering and Fabrication company specializing in innovative turnkey solutions for Pharmaceutical, Biotechnology and Healthcare segments. With over 14 years of experience, and more than 700 installations in over 42 countries, we have grown into one of the leading engineering and construction partners for pharmaceutical and allied industries.

Over the years we have diversified from designing and construction of Cleanrooms and controlled environments for Pharmaceutical & Biotech companies, into a complete, turnkey solution provider. Today our capabilities include in-house design, engineering, construction and manufacturing for critical and vital elements that go into setting up of a speciality manufacturing facility.

We are one of the companies internationally to have our own manufacturing of pre-fabricated panels, Cleanroom Equipments and containment solutions. We currently enjoy a strong presence in Asia, Middle East, Europe and the US and are constantly aspiring to increase our global footprints.

In Pakistan, FABTECH is represented by GMP INTERNATIONAL (Shomail Ahmad) as their Sole Agent.

Flying Distribution Network (FDN) is a leading medical appliances distribution company,
FDN – a highly popular enterprise is being run since last 2006 and based at one of
the high-profile areas of Karachi - Clifton. This medical equipment venture is
dealing in wholesale business in medical appliances, tools, and equipments.

FDN’s major role in furthering the cause of medical equipment is far greater,
relatively other medical equipment providers, as we not only provide the medical
equipments even we are also supplying the healthcare products either to the dealers
and hospitals all over in Pakistan.

Our core purpose of establishing the FDN is not to gain only money but
continuously to introduce the reputable and innovative health care products with
advanced technology from world wide , which are always demanded by our
valuable customers to raise the standard of health life in the country.

To achieve these higher aims and objectives, we are providing highly branded, cost
-effective, and top-class equipment coupled with our pre-and-post best services
which are linked with the warranty of certain period – update on this is given
during the finalizing of the sale of any of our product by our valued buyers.

We believe in the complete satisfaction of our clients, thus we take every step that
ensures to make happy through providing such equipments. which render the
features of perfect usefulness of our given product/s, prove entirely easier to
operate, appear being given on highly lower rates to make our products affordable
to everyone.
FLYING DISTRIBUTION NETWORK

In line with our mandate, unless our clients indicates his total satisfaction, we remain alert, provide every information, which he require from us, the reason of all our efforts and endeavors is, to maintain not only a hallmark of exceptional services at national level, even we are determined to provide the services, which may ensure the international hallmarks in the field of medical equipments either.

FDN is supplying its products to private clinics and hospitals, Thus, our broader clients are ranging from whole-sellers, hospitals, super medical and departmental stores, as well as the pharmaceutical companies across the country and aboard.

INTRODUCTION:
The Burns Centre was established at the heritage-protected building Jubilee Block, Dr. Ruth K. M. Pfau Civil Hospital Karachi, under the patronage of a philanthropic group “FRIENDS OF BURNS CENTRE – Patient Welfare Society” in collaboration with the Ministry of Health, Government of Sindh, to operate according to international standards. It is also a model project of Public – Private Partnership. Burns Centre was inaugurated on Monday 13, December, 2004.
The Burns Centre is also engaged in research and training of the medical professionals in the discipline of Burns Care & Plastic Surgery.
All this would not have been possible without the blessings of Allah and generous support of individual donors and NGOs, who do not hesitate to help us in the pursuit of our noble cause.

PURPOSE OF ESTABLISHMENT:
In order to provide quality healthcare to patients / victims of burns injuries. And there was the urgent need to upgrade the Burns Unit into a full-fledged Burns Care Centre and Centre of Excellence.

MISSION:
The mission of the Friends of Burns Centre is to act as a model, international standard state-of-the-art Burns Centre, dedicated to the prevention, free treatment and care of the poor and the needy burns victims/patients.

TREATMENT:
The Burns Centre is a 66-bed burns care facility in the country that has been providing all medical and operational services to each burns patients/victim 100% free of charge.

AIMS & OBJECTIVE:
State-of-the-art patients care facility for poor and needy.
Centre of excellence for training and teaching facilities for the undergraduate, Postgraduates. Continuous medical education. Paramedics / Physiotherapist / Lab Technician etc.

Research is one of the foremost priorities of this centre; data is being collected, studied, compiled and published.

Prevention of Burns: Many research studies have been conducted over the years regarding the causes of burns. Preventing accidental burns is possible only by making the susceptible people aware of the causes and methods of prevention through newspaper articles, radio programmes, leaflets, seminars and mother-child health facilities, etc.
FRIENDS OF BURNS CENTRE

CURRENT MAJOR ACTIVITIES:
Friends of Burns Centre has been dedicating to the prevention, research, training and free care and treatment of the burn victims / patients. Friends of Burns Centre have been providing all medical and operational services to the burn victims 100% free of charge.

PAST MAJOR ACTIVITIES:
Organized Awareness Promotion Campaign event Children's Poster Contest under the theme "Prevention From Burn Injury" in which 52 schools of Karachi participated and submitted 1233 posters for this contest.

PATIENT STATISTICS:
The Burns Centre admitted and treated approximately 13,357 patients and performed 35,888 procedures from February 2005 to July 2019. The Burns Centre has also treated approximately 159,941 patients at OPD during the same period.

DEALING WITH MAJOR INCIDENTS:
Besides busy daily work we also cope with large scale fire related serious disasters and incidents efficiently and promptly with maximum care like explosion at Gadani ship-breaking yard on 1 November 2016 which killed 27 workers, fire at the garment factory in Baldia Town on 11 September, 2012 which killed 289 workers and the 2007 Karsaz bombing which killed at least 180 people.

MEDICAL FACILITIES:
- Capacity of 66 beds for Burn victims.
- 9 bedded Intensive Care Unit with Ventilators for Males.
- 9 bedded Intensive Care Unit with ventilators for Females.
- 6 bedded Intensive Care Unit with Ventilator for Paeds.
- Well equipped 2 Operation Theaters.
- 24 hours Emergency treatment facility.
- Centralized Oxygen Supply system to all component units.
- Well stocked Pharmacy to meet all contingencies under two qualified pharmacists.
- Two professional Physiotherapists engaged to help the traumatic.
- Ultrasound & X-Ray Machines are some of the other exceptional features of the medical infrastructure.
- Central Sterilization Department for preparation of sterile dressings and surgical instruments.
- Separate Dressings Rooms for – Males – Females & Pediatrics.
- Disaster Cupboard storing all kinds of emergent medicines and dressings for 30 persons.
- 100% FREE OF COST round the clock care and cure facilities for all.

OPERATIONAL FACILITIES:
- Meticulously selected medical and Para-medical staff.
- Acquisition of top-of-the-line equipment and up-gradation of existing undertaken without any compromise on quality.
- Effective infection control, stringent sterilization measures, safe disposal of hospital waste.
- Clean and healthy environment.
FRIENDS OF BURNS CENTRE

Product Line : Plastic Packaging Manufacture

COMPANY BRIEF
The company is renowned as manufacture and supplier of best plastic items that are widely used for packing material in various industries, sectors i.e. pharmaceutical, healthcare, beauty aids, chemical, autos, foods & drink etc. We can easily and efficiently offer customized products to various industries in various sizes and designs as per the client choice. Our products are known for the features like design, finish, quality, reliability and long service.

Our Vision
We are constantly searching for innovation in existing and new products because innovations of today will become the standards of tomorrow.

Our Mission
Our main Motto is to develop the advanced plastic packaging materials for our valuable industry experience.

OUR SERVICES
Our services are provided under the superior guidance of our able professionals to achieve higher levels of customer satisfaction in the field of the plastic packaging industry.

Our Product Range
Healthcare companies have unique requirements packaging which can keep the chemical composition of the products intact and do not contaminate the products.

Quality Assurance
The quality of our products and our eagerness for distinguishing is the main aspect of our success and existence. The quality is highly qualified and trained.

Product Line : Laboratory instruments

Company is manufacturing laboratory instruments which are used in pharmaceutical industry and universities. Main manufacturing include

1. Tablet Dissolution Tester ( 8 jar & 14 Jars)
2. Tablet Disintegration Tester ( single basket and Double Basket system)
3. Tablet Friability Tester ( Single or Double Drum)
4. Tablet Hardness Tester ( Automatic measure hardness, Thickness and diameter)
5. Leak test apparatus ( for blister and bottles)
6. Stability chamber (400 and 1200 liter capacity, WIFI and builtin Data Logger, Touch Screen)
7. Tap Density Tester ( Method 1 and Method II)
8. Sieve shaker
9. Air sampler (for micro Lab)
10. Hot Palte with Magnetic stirrer
11. Multipoint Magnetic stirrer
12. Multi Point Data Logger ( WIFI Control, reporting in table or graphical format)

We have developed Touch screen models of above system which are state of art and have high tech features to meet present and future needs. So visit us on exhibition or our office.
Exhibitor's Profile

GEOLINKS (PVT.) LTD.

SEPA Approvd Company

Geolinks (Pvt.) Ltd. ISO 14001, 9001 and Sindh Environment Protection Agency (SEPA) certified waste management company providing innovative and cost effective waste management solutions in Pakistan since 2004. With a solid vision, and goal to work "For A Better Environment”, we strive to provide a total solution for industries requiring ethical, efficient and environmentally-friendly waste management solutions.

Geolinks specializes in hazardous waste incineration. We currently provide incineration services from our modern facility at Port Qasim Authority to over 50 clients from a variety of industries, including healthcare, pharmaceutical, chemical, agribusiness and more. The modern waste management facility is spread over three acres of land, and utilizes an advanced incineration system with air pollution control technology, constructed and designed by Geolinks. This allows for the incineration of solid waste in a safe and efficient manner, whilst keeping toxic emissions to a minimum.

Geolinks utilizes (HTI) high temperature incinerators which are of the two stage, modular package type, consisting of primary and secondary chambers designed to comply with Pakistan EPA emissions control regulations. Our staff also handles sensitive chemical waste, cleans chemical pits/tanks, supplies industrial equipment/machinery, dismantles/disposes of Asbestos materials and provides waste management consultation. The company's innovative and progressive culture has led it to build a solid reputation amongst various industries.

Management

Geolinks (Pvt.) Ltd. has been in the waste management business for over 14 years, and during this time the majority of our admin and technical staff has remained with us, making Geolinks one of the most experienced waste management companies in Pakistan.

Managing Director: Dr. Mubin Ahmed Aziz: Dr. Mubin has managed hundreds of projects ranging from the transportation, handling and disposal of ETP sludge to managing large scale industrial projects with organizations such as Fauji Fertilizer, Lotte Chemical and Engro.

Chief Operations Officer: Syed Tariq Ahmed: Mr. Tariq comes from a deep understanding of the pharmaceutical and healthcare industry, with over 10 years of managerial experience.

Technical Manager: Dr Moinuddin Ahmed Aziz: Prof.Dr. Moinuddin Ahmed Aziz is a foreign professor in Botany and has written over 150 papers in international scientific journals, he is also currently heading our team at JPCL to construct a hazardous waste facility and dispose of hazardous waste.

Senior Environmental Engineer - Saeed Akhter: Mr Saeed has a masters in Environmental Engineering and is a pioneer in his field as few have studied incineration in such detail. Mr Saeed has over 25 years of industry experience.
GEOLINKS (PVT.) LTD.

Project Manager - Imran Khan: Mr Khan has experience working in the UAE & Saudi Arabia on large scale industrial projects, and has been managing the Geolinks incineration facility for over 4 years. He is a hazardous waste expert and thoroughly understands the incineration process.

Manager Plant Maintenance: Mr. Syed Asad Ali having 05 years’ experience in plant maintenance and Asad Ali is an Electrical Engineer from “Hamdard University. MBA (Supply Chain Management & Logistics from “Iqra University”.

List of projects:
1. Jamshoro Power Company Limited: Geolinks has been contracted to design a hazardous waste facility and analyze, calculate, remove and dispose/store large amounts of hazardous waste within the JPCL premises in an environmentally friendly manner.
2. Aga Khan University Hospital: Geolinks provides incineration services to AKU and is currently incinerating their formalin and xylene.
3. Saifee Hospital: Geolinks uplifts, transports and incineration all infectious waste.
4. Glaxo Smith Kline: Geolinks has been providing services for GSK for 4 years. We receive all GSK expired and ruined products for incineration.
5. Getz Pharma: Geolinks has been providing services for GETZ Pharma for over 6 years. We uplift, transport and incinerate all GETZ Pharma expired and ruined products.
6. Other projects: Currently Geolinks provides services to over 50 clients. We have also provided industrial services such as tank cleaning to FFBL & Lotte Chemical.

GUARD GROUP
Guard Filters is pioneer in auto filters & Engine oil manufacturing in Pakistan since 1948 founded by Late Mr. Shafi Malik (Sitar-e-Imtiaz). Guard Filters own one of the biggest filter manufacturing plants in East Asia. We are ISO-9001-2015 and 14001-2015 certified company and committed to provide our customers with quality products at most competitive prices within specified shipping schedule.

We dedicate over 71 years of filtration experience to our customers; in the general industry segment, Guard Filters offers the most comprehensive global manufacturing capabilities in the air filtration industry, and each facility is specifically designed to manufacture and test the most complex clean air solutions. Additionally, each facility manufactures to the appropriate international quality and performance standards. Our goal is excellence in each product we make. Our corporate quality policy best states the Guard Filters commitment. Customer satisfaction and continuous improvement are our highest priorities. Product quality cannot, and will not, be compromised.

One of the big challenges facing society today is safeguarding the cleanliness of air and liquids. Innovative solutions are called for and Guard Filtration Technologies has the answers. We develop solutions that make processes more efficient, save resources and protect our environment, thereby raising the quality of life. We also have extensive knowledge of the food industry: Seed (Rice, Cotton & Vegetables). Lubricants & Oils: Automotive engine and transmission oils, Hydraulic oils, Brake oil, Engine coolants, Greases.

Guard Group has developed HEPA filter which are best for Pharmaceutical industry, Hospital & Food industry. Guard HEPA Filter is manufactured according to international standards in proper clean room environment. Every filter challenged to the maximum limit with a high concentration of DOP test by using particle counter meter.

Designation : Head Sales/Mktg.

GUDIA, a family owned and professionally managed business entity established in the year 1974 when Mr. Nissar Hussain Wazir (Late), Founder Chairman, laid the foundation of GUDIA CORPORATION, with a strong vision for the future.

With the passage of time, GUDIA CORPORATION emerged as one of leading trading companies of Pakistan completely adhering to its corporate MOTTO “Fairness and Honesty”. Soon Management of GUDIA Corporation realized the needs of Pakistan Pharmaceutical and in 1979 they a new enterprise known as Gudia (Private) Limited to cater the requirements of the Industry through diversified product range & customized services.

The Legacy of Nissar Hussain Wazir continued to the next generation and it was the sagacity and farsightedness of his son Mr. Munawar Abbas Wazir that provided an impetus to the progress of the company, who made it dynamic giving it a futuristic outlook. This vision is further actualized by untiring efforts of Mr. Toorab Ali Wazir, who is looking after day-to-day operations, managing it very effectively through his dedication and efficient workforce.

We at GUDIA are fully aware of the changing business dynamics and are consciously geared – up with the modern management practice, technological advancements and changing market needs in all our operations, approach & business portfolios so that we can truly reflect ourselves as a professional and modern day enterprise.

Today, GUDIA (Pvt.) Ltd, enjoys unwavering confidence of customers across Pakistan mainly due to its strong affiliation with foreign principals, customer-friendly services and partnering with our valued clients.

GUDIA is also a patron member of SAARC Chamber of Commerce & Industry (Apex Trade Organization of South Asia for Regional Co-operation) and staunch believer and supporter of the aims and objectives particularly economic and social field of SAARC as they are playing pivotal role in boosting business activities between member countries.
GUDIA

GUDIA’s head office is located in Karachi with branch offices at Lahore and Islamabad. GUDIA is fully aware of the technological developments and is equipped with latest sophisticated communication tools and a well-managed IT department to cater the needs & brought swiftness in day-to-day business activities.

Gudia (Pvt) Ltd completed its Silver Jubilee in 2004, though it is not a big achievement but it is a unique feat due to the fact that our beginning was modest and we grew up to be a leading trading house in short span of time. Gudia has very aggressive future plans which will surely open new horizons for the group & bring in more diversity and opportunities. GUDIA is thankful to Almighty Allah which helped us right from inception and his recognition and & success achieved during this period and always look forward to HIS mercy and Support in days & years to come.

Pioneer Producers of Rice Based Starch Sugars and Proteins

Habib-ADM Ltd pioneered the conversion of Rice into:

- Glucose
- Maltodextrin
- Sorbitol
- High Fructose
- Dextrose
- Rice Protein

Contact Information:

Tell: +92-853-363963-5
Email: mkt_habibadm@hotmail.com / habib-adm@hotmail.com / hal-adm@hotmail.com
Website: www.habibadmltd.com
THE MOST DIVERSIFIED PRODUCER IN THE WORLD

Habib-ADM Limited and its subsidiary companies produce and market a wide range of rice-based starch sugars, protein concentrates, and derivatives. Popular starch sugars include Clarified Rice Syrups, Brown Rice Syrups, High Fructose Syrup, Rice Syrup Solids, Maltitol Syrup, Sorbitol Syrup, and Maltodextrins— all essential ingredients for the food, confectionery, and pharmaceutical industries.

As pioneers in producing starch sugars from rice, the company has consistently diversified its product range. Determined efforts and significant investments in R&D since 1982 have made HAL the most diversified producer of rice products in the world. Apart from the widest product range, HAL is also the only 100% vertically integrated producer—sourcing raw rice paddy directly from the farmers, processing it into various products and converting some of these into confectionery items to be sold in retail markets to household consumers. This vertical integration ensures the farmer receives the best possible values for his crop while the final consumer is able to buy the highest quality products at reasonable prices.

THE HABIB GROUP – A TRADITION OF TRUST

In order to promote and maintain high levels of customer satisfaction and efficient management practices, the businesses are run by highly qualified family members and professionals dedicated to the Group’s founding principle “deliver better than bargained for”.

Take Advantage of HAL’s Experience
HAL has been in production since 1982 with over 34 years experience in the industry. Habib-ADM is committed to consistently develop new products and also offers customer-specific, tailor made products—if you have a specific requirement not available elsewhere, it’s likely Habib-ADM can produce it for you.
HABIB-ADM LTD

QUALITY ASSURANCE PROGRAM
HAL employs some of the country’s brightest and most qualified professionals, provides them access to the latest technology and techniques, and empowers them to perform at their best time and time again. Production processes are consistently reviewed and upgraded wherever possible; new methods are developed, tested, and implemented if found to be better; control systems repeatedly tested, audited, and strengthened; all measures are taken to ensure HAL remains the most advanced and dependable supplier offering customers the highest quality products.

In order to further strengthen production processes and quality controls, HAL’s production facilities, are compliant with cGMPs, are ISO 9001:22000 and HACCP Certified as well Kosher and Organic.
Hangzhou Cuanz Medical Device Co., Ltd is located in Hangzhou city, adjacent to Shanghai, Ningbo, convenient to transport. Since, HITEC CORPORATION® inception in Pakistan in 2014, we sought to become a ‘broad-based competitive integrated solution provider’ for the electrical and health industries, respectively. HITEC CORPORATION® have been actively engaged in determining the most competitive international products and services for the Pakistani market. In the fiscal year of 2017-2018 we have developed client relationships with the major public and private hospitals in Karachi, Lahore, Islamabad and Peshawar. We have identified and forged relationships with international partners to address the Pakistani market needs, with the intention to provide health-care solutions that are available in the North American, European and Middle-eastern market. Our commitment is to provide FDA and CE approved products will ensure this competitive edge. Also, we have a unique capability in providing quick and efficient acquisition of SFDA (Saudi Arabia Food & Drug Approval).

HITEC CORPORATION® has two divisions namely (1) Electrical and (2) Medical these are two large markets to compete in. In the medical market, we have identified our customers and work constantly to expand our market share in the (1) Public: Government and Armed force hospitals (2) Private: Hospitals, Clinics and Diagnostic centers. In the electrical market, we have identified (1) Government (2) Semi-government and (3) Private – institutions with whom we participate in tenders and purchases.

We have successfully built a strong accounting and logistical framework in which to ensure ready-stock to fulfill customer needs. Also, having a strong know-how
HITEC CORPORATION

and expertise of health, energy and railway tenders and government PPRA regulations advances our prospects for success. Furthermore, our understanding of the taxation, banking and import-distribution practices and trends gives an advantage over our competitors.

Medplus is a leading manufacturer with 12 years experience for Surgical Gowns, Drapes, Packs and Minor Procedure Kits, etc. Medplus is a paragon of strength and stability financially, strategically and organizationally. With sales office in the center of Shanghai, we own two manufacturing facilities in Jiangsu Province, China. Our first plant is located in Yangzhou city, with 20,000 M2 production area. Our new plant is Siyang city, with 60,000 M2 production area, resulting in a major increase of our production capacity. Also we have a sterilization center with two 32 M3 cabins which enable us to deliver 80 containers of sterilized items monthly. Our GMP standard chemical laboratory equips us with solid quality test before and after production. Medplus has over 30 professional sales/production/operating/quality staffs and over 900 skilled workers in our HQ and factories. We have sharp instinct to the medical trend in the world and keep our products updated, innovative and premier. Our company holds TUV CE0197 ISO9001:2000 ISO13485:2012 FDA SFDA NO.:MDMA17080095 certificate and GMP approval. Medplus’ mission is the maximum safety for the patient together with the highest level of comfort and protection for the surgeon. Our goal is to provide our partners the most efficient, cost-effective and high quality infection prevention solutions.

Stall No(s) : Hall – 5 / E57
Product Line : Medical and Diagnostic Bacteriology Laboratory

KARMA Co. (Karma Azma Andish) has been stablished since 2010. KARMA manufacture company is in Barekat pharmaceutical industrial zone (Karaj, Iran). Our products are in the field of diagnostic bacteriology (in medical and bacteriology research laboratories). The overuse of antibiotics in recent years means they’re becoming less effective and has led to the emergence of "superbugs". These are strains of bacteria that have developed resistance to many different types of antibiotics.

- We have developed new ANTIBIOTIC TABLETS/DISCS for antibiotic susceptibility testing (Antibiogram).
- We have also developed a device and software (ANTIBIOGRAPH) for “Automated analyzing antibiogram testing”. This device can collect valuable local information about drug resistance status and provide it to the health centers of the countries. Therefore, careful planning will be done to control drug resistance.
- An Enterit kit is a laboratory used to identify Enterobacteriaceae genus and species. This series acts on the basis of the reaction of the unknown bacteria against the 13 different types of biochemical tests (dehydrated substrates) and the production of different colors.

We have representation in different parts of Iran. We are ready for diverse business negotiations.

Koohi Goth Hospital is a 200 bedded health care center where all obstetrics &
gynecology services are provided free of cost and without any discrimination of
race, color, caste or creed. Here, great efforts are made to provide rehabilitation
services to the underprivileged women of Pakistan; especially to fistula patients
(an acquired disease in which, due to child birth complications, there is a false
connection which causes continuous leakage of urine and/or feces). This is the
only charity fistula treatment center in South Asia, and provides state of the art
laparoscopy surgery and fistula management training.

Lab Informatics Systems
Lab Informatics Systems (Labisys) are Distributors for LABWARE in Pakistan, provides Only Laboratory Information Management System for Standard Quality Assurance and Quality Control Labs and Electronic Laboratory Note Book for Research & Development Labs in an easily configured common platform.

LabWare is the world’s leading specialist in laboratory workflow automation. We empower our customers to succeed because we engineer and deliver a full featured, configurable, enterprise solution that provides results and retains its value. 80% of top 100 Pharma Companies globally are powered by Labware LIMS.

Comprised of LIMS and ELN functioning as an integrated single solution, it offers the industry’s broadest range of user-configurable functionality and is based entirely on open standards. This provides the best solution to current requirements and also enables the system to be readily adapted as your business needs change.
Our sole focus is laboratory informatics and we develop, market, and support a single well-planned suite of products. LabWare has invested in establishing sales and support facilities around the world to provide the best possible support to our customers in over 90 countries.

We also have a unique business practice of making all functionality available under a single software license and of not charging extra fees for optional modules. In this way, all our customers share in the benefits of a continually improving product suite.

DR. PAUL LOHMANN GMBH KG
Hauptstraße 2, 31860 Emmerthal/Germany
Tel : + 49 5155 63-0
Email : sales@lohmann4minerals.com
Web : www.lohmann4minerals.com
Stall No(s) : B86
Product Line :

Dr. Paul Lohmann® is the world's leading manufacturer of high value mineral salts from Aluminium to Zinc for the pharmaceutical, nutritional supplement, food and personal care industries. More than 130 years of manufacturing experience - combined with innovation and flexibility - enables Dr. Paul Lohmann® to respond rapidly to your changing needs.

Customers can profit from the broadest available portfolio of mineral salts, with more than 400 products, designed to provide optimum performance across a wide range of applications. Dr. Paul Lohmann® develops and optimizes products and product grades according to the customer's requirements. This optimization includes the adaptation of chemical and physical parameters such as bulk density, wettability, particle size, purity and pH-value.

The production sites are GMP, FSSC 22000/ISO 22000 and ISO 9001:2015 certified. The production site Emmerthal is successfully inspected by FDA (U.S. Food and Drug Administration) in the context of FSMA (food safety modernization act).

As a global player Dr. Paul Lohmann® has sales subsidiaries in Singapore, New York/USA, Eindhoven/The Netherlands and Evry/France and works with more than 80 agents worldwide.

More than 90 APIs
As API manufacturer, Dr. Paul Lohmann® offers complete pharma documentation, such as DMFs, ASMFs and CEPs for submission to various health authorities worldwide.

Low in Endotoxins
The low in endotoxin qualities are manufactured in a purpose-built facility. Mineral compounds low in endotoxins can be used for solutions for infusions, injections, preparations for dialysis and for biopharmaceuticals.

Innovative Salts for Biopharma
Dr. Paul Lohmann® is an expert in salt manufacturing and provides DPL-BioPharm Salts for the biopharmaceutical industry. These salts act as nutrients for cell cultures, as buffering and post-harvest processing agents within upstream processing. For downstream processing various acetates, citrates, phosphates and sulfates enable efficient bioprocesses for separation, precipitation and purification. Within final formulation DPL-BioPharm Salts stabilize and buffer the drug substance.

Nutritional Supplements
Minerals are essential for a healthy diet. Due to the numerous dosage forms, nutritional supplement production faces an array of different challenges. Thus, Dr. Paul Lohmann® offers its customers the particularly suitable product quality for the desired dosage form.
High purity Mineral Salts

- Tailor-made solutions for various applications
- GMP certified production sites
- German manufacturer

Our Vision
To deliver the best possible customer service, excellent quality and the most advanced products. Medical Ray X policy is simply to be "Brilliant by Services". We want to be the automatic supplier of first choice to our key customers by providing them with the best products and a personal service.

Company Profile
Medical Ray X is a Pakistan company based in Leeds since 2014, where we Importer and exporter a range of medical equipment. We are specialists in medical equipment for hospitals, clinics and Imaging Center. Our specialist fields include Computed Radiography (CR) Direct Radiography, Xray Units, Magnetic Resonance Imaging, Angiography and Computed Tomography

Mission Statement
“The mission of Medical Ray X (MRX) is to pursue excellence in product development and support services. We strive to provide our customers with high quality products at a fair price, while satisfying our shareholders and the communities in which we transact our business”

WHO ARE WE?
1. Founded in 2014, Medical Ray X has grown by more than 100% each year. We are constantly expanding our portfolio of areas of activity.
2. We are well known to every private and public hospital in Pakistan/Afghanistan and have a robust network of Pakistan key opinion leaders (doctors).
3. We build our reputation on reliability, sound business ethics, and the highest level of performance.
4. We believe that our first responsibility is to the patients, doctors, Technologist and nurses.
5. We are loyal and responsible to our employees — the men and women who work with us throughout the country. We believe our people should feel part of a family, enjoying a sense of security in their jobs while developing their skills
MEDICAL RAY X

6. Everything we do is focused on achieving the highest quality in meeting the needs of our patients.
7. We process and deliver customer orders within 2 working days (or less in an emergency)

We offer following services:

- Buying and selling of used medical equipment
- Removal / Relocation / Transportation / de-commission of medical equipment
- Sale of medical equipment, custom designed to match the client's requirements to suit their budget
- Domestic and international shipping and installation of the medical equipment being sold by Medical Ray X
- After sales services such as equipment service, repair and annual safety checks by a network of technical business associates and engineers across the world
- Leasing medical equipment to clinics, hospitals and imaging centers
- We provide DICOM solutions such as PACS Server, DICOM CD / DVD Recorder, DICOM Storage, DICOM Print Server and more

VALUES
Values that we live by:

PASSION – We are passionate about empowering the medical community all across the world by providing refurbished medical equipment which cater to their medical & technological needs.

INTEGRITY – Honesty is the virtue that we live by. We have always worked towards making all our processes transparent for our customers as well as employees working within the organization.

LEADERSHIP – We take pride in setting high standards in all the operational processes, delivering the best to our customers. Our core lies in being able to adapt to new market dynamic thus becoming the market leaders and making Medical Ray X a name that can be relied on.

QUALITY – We believe in setting standards, creating benchmarks in the industry.

BINDER temperature, climate, and environmental simulation chambers are the
centerpieces of modern laboratories. Designed to meet the highest demands in
scientific and industrial fields, they enable the accurate simulation of biological,
chemical, and physical environmental conditions. With cutting-edge technology
and pioneering innovations, BINDER develops products that provide real added
value for the customer. We apply our expertise and feel for the requirements of
dynamic, day-to-day work in research facilities to support the widest range of
projects and processes in an optimum way. After all, our aim is nothing less than
making a contribution to the health, quality of life, and safety of people.

Randox Health- Healthcare of the Future
MUSLIM TRADING AGENCIES

Randox Health is a revolution in prevention, detection and treatment, founded on more than 30 years of knowledge and discovery by our parent company, Randox Laboratories. Randox Health has distilled pioneering science and combined it with medical expertise, to bring the public some of the most advanced blood-based health assessments available anywhere in the world.

70% of all medical decisions are based on diagnostic tests and at Randox Health we have created a menu of more than 400 tests to accurately and rapidly detect even the smallest signals of disease and infection, inflammation and imbalance, predispositions and gene mutations.

Nimbus Chemtech is service providing / indenting company which was founded in 2004. The Company took the start on small scale of business but with the passage of time it has grown to become the mighty as one of leading company in the whole territory of Pakistan.

In addition to our head office in Lahore, and with major offices across the Pakistan and Abroad, our professionals serve clients globally.

Now its 16-years success of Nimbus with the cooperation of teamwork. Our management team has several years of domestic and international experience and a strong history of business, academic and technological accomplishments and every department is working efficiently with in order to achieve their targets.

About Nimbus:
By grace of almighty ALLAH, Nimbus one of the fastest growing indenting company in Pakistan, aiming at providing quality services to our valuable customers. We have a latest business and communication facilities besides experienced indenting staff and linkages in pharmaceutical industry.

NIMBUS is your bridge to quality pharmaceutical, nutritional, sweetener, packing list and machinery. Our expertise is in developing, sourcing and distributing raw materials from our unrivaled network of suppliers in Worldwide.

Nimbus is committed to researching, developing & marketing novel products of high therapeutic value for our Human & veterinary medicines for our valued customers by maintaining high standard of Co-operate Governance, which is a key factor in Nimbus success.

Its allow us to maintain the long- term business relationship for buyers and suppliers worldwide. Nimbus is committed to transparent and ethical business practices and invites you to review the principles, rules and guidelines under which we operate. Customers can also be able to get acquainted with Nimbus management team and examine the activities of our various standings.
**Exhibitor's Profile**

**NIMBUS CHEMTECH**

We believe in providing excellent services to local customers and enable and facilitate our foreign Principals and suppliers to sell and market their products in worldwide as they sell in their own country. We protect interests of both partners equally and mutually without any discrimination. Also our approach towards indenting is not just for one time transaction, instead we believe into building long term relationship with local customers and International supplier on the basis of trust, loyalty and mutual interest.

While keeping work force diversity in consideration, Nimbus Indenting House has been divided in four different departments so that smooth business operations to be conducted efficiently and effectively with ease.

- Business Development Department
- Commercial Department
- Packaging Department
- Sales & Marketing

“Good health is vital to all of us, and finding sustainable solutions to the most pressing health care challenges of our world cannot wait.”

**CEO Message:**
Welcome to the family of Nimbus!
Nimbus is not only a name or a company. It is a passion, a desire to grow, serve and excel. Its success story is carved by untiring hard work, dedication and adherence of its team members to its cause. For our clients Nimbus is a name which stands for its commitment, customer care, integrity, product knowledge, trouble free services and competitive prices.

All this have been achievable with the grace of Almighty Allah, prayers of our parents and untiring hard work of Nimbus’s team members. All of the team members are thankful to their clients for their complete faith on Nimbus as well as their OEM’s/suppliers for their complete support, responsiveness and soft corner for Nimbus.

Our mission is to develop an everlasting as well as blossoming relationship with our clientele. Nimbus ensures that it’s top of the range industrial products and customized services offerings facilitate not only current but also future industrial requirements of its customers. We strongly believe that only by offering a wide range of products of good quality and by exquisite customer care we will be in a mutually beneficial bonding with our customers leading all stake holders to success.

“To us success is not a destination, it is a journey and we are focused on it.”

**Pioneers in Developing Chinese API’s:**
There are thousands of API manufacturers in China. Selecting only those with the right GMP mindset and good compliance to bring to regulated markets, is what Nimbus does best. Taking high performing local companies with the right technology, assisting them with technical, compliance and regulatory issues and connecting them with customers in regulated markets is where we add our value.

BRIEF HISTORY / PERSONAL PROFILE PATEL HOSPITAL

Patel Hospital, one of the leading tertiary Health care hospitals in Pakistan, initiated in the year 1999, inaugurated by the then President of Pakistan “Mr. Rafiq Tarrar”. It is an ISO 9001:2008 certified Hospital. The current capacity of the hospital stands at more than 200 beds with the 24/7 functioning Emergency. Our Patrons, (Late) Mr. Abdul Ghaflar Abdul Rehman alias Mithu Patel and his wife, (Late) Mrs. Zubeda Abdul Ghaflar, had a dream, an Idea to build such a hospital, where quality healthcare facilities are available to all at an affordable cost and for free to the under-privileged, it’s because of their dedication and hard work that Patel Hospital is the living epitome in the health care industry.

The broader and stainless structure of our Hospital is erected on the four pillars of excellence, which are: Clinical, Technological, People and value. Our vision and mission is aligned as such that, we automatically focuses on the provision of quality healthcare of international repute and standards to all the sections of the society. We are catering to around thirty five healthcare specialties including preventive medicine, working day and night to assure the outstanding care to a patient. Our core believe is on the patient centric approach which enables us to combine the best and able clinical staff with the latest and advanced technology to create optimum patient experience and outcomes. We are continuously striving for the enhanced Physician and Clinical performance with our teams of interdisciplinary professionals who always attempt to discharge their finest in provision of the ultimate care and services to the patients and communities in a reverential and compassionate environment.

The Multidisciplinary and Holistic approach towards healthcare delivery has earned us a distinction among our fellow Healthcare institutes and a distinguished imprint in terms of the preferred destination for affordable quality medical care for the patients belonging to all facets of life.

In the last eighteen years, Patel Hospital has progressed consistently, we have established number of units to cater to increasing patient demands including The Suleman Dawood Burns Unit, Patel Institute of Nursing and Allied Health Sciences, Saira Dawood Institute of Eye diseases, Zubeda Patel Cardiac unit, Aisha Bhaimia Clinical Laboratory, Ismail Ebrahim Bhaimia Intensive care unit, H. Irshad Elahi and Family Gastroenterology and Hepatology Unit and Mahmood Esoof Sulaiman Bhaimia Paediatrics department, Executive and VIP suite. Patel Hospital is also an academic postgraduate teaching hospital and it is our commitment to maintain such an environment and provide such stimulations in which education and research in health sciences and allied areas flourishes.

Lastly, our one of the most proud element is our firm believe in Corporate Social Responsibility (CSR) i.e. giving back to the society. The areas on which we focus on are healthcare, education, environment and community building, and the dividends of these activities can be attained by anyone deserving. Not only have we spent millions in philanthropy in patient treatments every year, we also provide human expertise in educating and enlightening the society as a whole on different medical and education topics.

Pakistan Islamic Medical Association (PIMA) is a large national body of doctors striving for promotion of academic and ethics in the field of medicine and contributing substantially in medical relief with over five thousand members associated in District and Provincial set-ups, guided by Central Executive Council.

Our aim and objectives are to motivate doctors to meet the practical requirements of Islam and organize on one platform. To make effective arrangements for ideological, moral and professional training of doctors belonging to this organization. To setup professional medical organizations on correct and constructive lines and make efforts to solve in a positive way the genuine problems of the people in medical profession. To establish on Islamic lines an effective health policy and medical education in the country. To formulate plans for the executive of charitable work concerning medical profession and through them disseminate among masses the message of Islam.

Right now we are involved in the following fields of interest;

CME (Continued Medical Education) Seminar, Symposium, CMEs, Conferences, Conventions etc. PMDC Approved Credit Hours Organization
Relief Activities & POB Trust (Medical Relief and Free Eye Surgeries)
Dawat-o-Tarbiyat (Quran Fehmi Courses in 11 different places of Karachi City)

Cell : 92-324-2880510  
Stall No(s) : F-30  
Product Line : Eye Health Care

Prevention of Blindness Trust (POB Trust) is a project of Pakistan Islamic Medical Association (PIMA) and a registered NGO with the Govt of Pakistan since July 2007. It works for the prevention and control of blindness and visual impairment. The prime objective of POB Trust is to promote and sustain a national and international campaign against all forms of avoidable blindness and preserving eye sight by organizing Free Eye Camps at National and International levels to render diagnostic and surgical services in far flung areas. POB Trust till now has done 125,000 Free Cataract Surgeries both within as well as outside the country. POB Trust along with SAVE VISION is providing free services through Africa & some parts of Africa like Sudan, Nigeria, South Africa, Indonesia, Burkina Faso, Mali, Somalia, Marrakesh, Zimbabwe, Senegal, Chad, Gaza Phalistine. Around 22 Countries have been served by POB Trust so far.

POB Eye Hospital was inaugurated in May 2015 and is providing Free OPDs for EVERY ONE on daily basis. Around 2000-2500 patients are examined monthly and around 250-300 Free Cataract Surgeries are performed by experienced eye surgeons every month. This hospital is fully equipped with basic latest equipments in OPD and in Theatre including YAG & ARGON Lasers. From its opening we have done around 3000 Free Cataract Surgeries so far.

Available Services are Computerized Eye testing, Refraction, Consultant OPD, Biometry, OT, Pharmacy and Optical Shop, Diabetic and Hypertension Clinic with YAG & ARGON Lasers. Latest method of Cataract Surgery are being used with Phaco Machines, called Phaco-Emulsification with foldable IOL totally fee of cost.
Our activity in the field of production of dental and medical equipment began in 1990 with the production of dental porcelain furnace. In 2015, the branch of our entrepreneur began with the aim to expand the market and cooperation with the European companies, his activity in Germany. The company invested in research and development with the aim to develop technologies for the production of dental equipment. After more than two decades of effective and continuous community work of leadership with local professionals, today our products are manufactured with the highest quality and competitive price compared to other existing brands in the world market.

Welcome the clients all over the world to negotiate business with us.
Established in 2014, Saakh has been paving its way forward with the aim to manufacture Active Pharmaceutical Ingredients (API) of the highest quality at the most cost effective rate to improve Pakistan’s health standards and for the greater benefit of humanity.

The Company initially acquired a semi basic manufacturing facility by virtue of acquisition agreement and added value in term of increasing plant capacity, equipping the quality control department with modern apparatus and providing different facilities at the plant area. We initially started with production of only one antibiotic i.e Amoxicillin Tri-Hydrate and as of today are manufacturing the following APIs:

**Penicillin**
- Amoxicillin Tri-Hydrate
- Ampicillin Tri-Hydrate
- Cloxacillin - Sodium

**Cephalosporin**
- Cefixime
- Cephradine

**General**
- Paracetamol (BP/USP)
- Sitagliptin (USP)
- Ciprofloxacin HCL

**Taste Masking**
- Clarithromycin (Ph.Eur)

In continuation to our vision, by December 2019 we plan to launch the following APIs commercially:
- Montelukast Sodium
- Levofloxacin
Leading API Manufacturer in Pakistan

SAGA INTERNATIONAL is the leading association representing the international Packaging / Printing community. Its goal is to advance industry growth through standards, professional competence, time and cost-saving solutions. In order to most efficiently server the industry, SAGA INTERNATIONAL has introduced specialized Packaging / Printing Machinery and Packaging Material dedicated to major areas within the industries. SAGA INTERNATIONAL introducing the following Packaging / Printing Machinery and Material as below.

We introduce those Packaging / Printing Machinery and Packaging Material which can efficiently be used in following sector of industries, Lubricant Oils, Food, Fruit, Cosmetics, Pharmaceuticals, Sports, Garments, Textile, Spinning & Weaving, Leather, Surgical, Auto Parts, House Holds, Ceramic and all the respective area's of Packaging.
SAGA INTERNATIONAL

SAGA INTERNATIONAL has been established since 2000 but the experience and specialty of servicing the Packaging / Printing Machinery and Packaging Material its more than 30 years.

SAGA INTERNATIONAL helps industry to run better through its fast, speedy and cost saving Packaging / Printing Machinery that also equipped with modern style and SAGA INTERNATIONAL technology focuses on defining new modes of Packaging / Printing technique from its very banging. SAGA INTERNATIONAL introducing platforms of modern technology are now pervasive across all customer segments where high fidelity Packaging / Printing matter. We are also looking forward for the betterment of the industries by using our Packaging / Printing Machinery and Packaging Material. Today, more than 30 years after its founding, SAGA INTERNATIONAL is committed to delivering our imported products, and services that customers can build on and grow with. Through constant innovation, SAGA INTERNATIONAL is pushing the boundaries of Packaging universe it helped create.
The SAMA Company was founded in 1978 and is involved in providing Packing Machines and Product processing systems.

Sama Packing machines and processing system provides packing machines, processing system, Snacks processing lines, Pharmaceutical lines and Bakery lines at minimum running cost offering a high level of automation, Efficiency, ergonomics and reliability.

The Solution is set according to the product and the packaging material of the customer. Flexible packaging is becoming more and more popular due to its multiple advantages over other types of materials. This can be clearly noticed in some sectors as food and beverage, pharmaceutical, cosmetic, health and personal care amongst others where flexible packs are gradually replacing traditional presentations like bottles, tins or other rigid containers.

Expertise:
- VFFS - Vertical Form Fill Seal.
- HSSF - Horizontal Form Fill Seal.
- Blister Cartoning and Machine.
- Bottle Filling Line - Powder and Liquid.
- Blister Machine.
- Tube Filling and Sealing Machine.
- Mixing Blanding - Cone Blander, Ribbon Blander, V-Mixer.
- Multiline Sachet Machine.
- Other Auxiliary Items.
- Metal Detector and check weigher.

We have been involved in providing TURNKEY SOLUTION to all the Pharma Industries of Pakistan and International.

TURNKEY SOLUTION:
1. Consultancy.
2. Project Layout.
3. Feasibility.

Shandong SMA PHARMATECH Co., Ltd. is located at High & New Technology Zone, Zibo City, Shandong province, established in 1995. The predecessor ZIBO IMA XINHUA PHARMATECH Co., Ltd. was a joint-venture cooperated by Italy IMA S.p.A. and Shandong SHINVA Medical Instrument Co., Ltd.

Since the establishment, by virtue of IMA's global leading brand solid dose technology, thanks for the first class manufacturing system, excellent technological base, strict and efficient management, precise and pragmatic working style, we succeed in not only the sales of perfect solid dose equipments but also the timely and thoughtful pre-sales & after-sales services, and the technical consultancy.

SMA has obtained great reputation in the pharmaceutical industry sector. After the reorganization, still as a joint-venture company, SMA will inherit IMA's solid dose technology and keep on moving by independent innovation in the future development. Based on the requirements from market and CGMP standard, we will supply constantly to all our customers efficient, reliable, qualified but reasonable priced solid dose equipments, automatic integrated solutions and comprehensive services.

Sinocare Inc. is a high-tech company. Sinocare has been working on promotion the development of diabetic healthcare industry, since our establishment in 2002. As one of the demonstration projects of National Biomedical Engineering High-Tech Industrialization Program, Sinocare received financial supports from the National Innovation Fund for several times, and passed ISO: 13485 quality management system certification and European CE certificate in 2007. The high-quality BGMS sold under “Sinocare” brand has won the recognition from various consumers because of its accuracy, simplicity and affordability. The trademark “Sinocare” has been recognized and accredited as the “well-known trademark in China” by SAIC (State Administration for Industry and Commerce), which is the highest honor for the Chinese brands. Sinocare products are not only best-selling in the domestic market, and have also been successfully exported to the international market. On March 19th of 2012, Sinocare was listed on Growth Enterprise Market of SZSE (Shenzhen Stock Exchange SHE: 300298) and became the first biosensor stock in China. By gaining over 51% market share of domestic BGMS in retail channel, Sinocare has become the leader in BGMS industry of China by 2015, then it has been listed by Forbes as one of Asia's 200 Best Under a Billion companies.

Surge Laboratories is the pioneer / leading pharmaceutical manufacturer of microencapsulated API’s in Pakistan. The company has its cGMP compliant manufacturing facility near Lahore, at which wide range of microencapsulated API's are being developed, manufactured and commercialized on latest European Microencapsulation equipments at all levels (laboratory, commercial & bulk Scale).

The state of the art microencapsulation technology from Germany enables Surge to conduct series of microencapsulation operations with high precision/quality including Taste Masking/Coating of bitter API’s, Coatings of API's in form of Granules & Pellets, Coatings of raw materials to protect them from moisture, odor, and bitterness etc.

Surge's high quality microencapsulated taste masked/coated granules range includes coated granules of Clarithromycin, Azithromycin, Ciprofloxacin, Secnidazole, Riboflavin, Paracetamol, Pyridoxine, Mebeverine, Citric Acid, Aspirin etc.

Surge's premium quality microencapsulated pellets range includes coated pellets of Esomeprazole, Duloxetine, Diclofenac Sodium, Mebeverine etc.

The company's high quality microencapsulated-API’s synergized with dossier support, has not only fetched all domestic market (including the originator) but also has extended its outreach to South America, Mena, EU, Asia, Fareast and Africa.

Surge also offers its own branded generics and extends contract manufacturing services to domestic & International customers across the globe and is preferred source for diluents (water/Injection, Lignocane).

with coding and marking solutions

SWS (Pvt.) Ltd is a leading company providing complete weighing, marking and coding Solutions in Pakistan through its trained & professional sales Team. We also provide service and support for equipment and equipment installation, repair and maintenance. We have a team of highly qualified and experienced sales & service engineers providing pre sales consultancy and after sales support to all our industrial clients in this region. We supply weighing equipment and coding solutions to Pharmaceutical, Chemical, Food and Beverage, Agricultural, Petroleum, Cement, Oil & Gas, and Steel Industries.

Understanding the past but shaped by the future. We always look at opportunities and challenges from a visionary point of view and consider from the outset of our client’s goals. Our sole ambition is to help maximize their potential. Together with the well known market leaders and customer we sure will succeed in our ambitions.

We are always keen to support you and work hand-in-hand for common goals.  

Our main product lines consisted of:

- Laboratory weighing scales  
  (Precision Balances, Analytical Balances, Top loading balances, Unibloc Moisture Analyzer)

- Industrial weighing scales  
  (Truck Weighing Scales, Rail Scales, Platform Scales/ Floor Scales, Crane Scales, Tank Weighing/Silo Weighing Solutions)
SWS PVT LTD

- Marking and coding Solutions
  ( Inkjet printers, Laser printers, Thermal transfer over printer, Large character printer )

We strive to be the partner of choice for our customers, offering them innovative products and one-stop expert service. We also endeavor to be an excellent place to work, offering interesting, challenging assignments and the chance to develop a rewarding career.

We aim for top-tier market positions, offering our products and services from main market leaders. We are determined to create value for our esteemed customers.

Introduction
We would like to introduce ourselves as largest instruments supplier offering our expertise and services in quality control labs for Plastics Industries, Packaging Industries, Pharmaceutical industries and Material Testing Laboratories. Beside complete projects on turnkey basis, we have to our credit a long and proven record of experience in allied technologies of instruments with having varieties and ranging of worldwide manufacturer instruments and also supplier of raw materials hence we are fully equipped to turn client’s idea into reality.

We are the official partner of “ISOTECH” UK & “ZWICK/ROELL” Germany in Pakistan.

ISOTECH is a world leader in temperature calibration with over 35 years’ experience in the design, manufacture and use of temperature calibration standards. Temperature metrology equipment includes,
1. Thermometry Bridges,
2. Standard Platinum Resistance Thermometers and
3. ITS-90 Primary Standards

Used by the world’s leading National Metrology Institutes as well as accredited temperature laboratories, research laboratories, pharmaceuticals, and Oil and Gas companies.

Industrial temperature calibration equipment includes,
1. portable dry block calibrators,
2. liquid baths,
3. furnaces,
4. infrared calibrators and
5. thermocouple referencing.

Isotech have complete calibration solutions; from metal block baths for calibrating thermocouples and RTDs, high accuracy liquid baths and furnaces to complete ITS-90 Primary Standards.

ZWICK/ROELL offers the right solutions for packaging in pharmaceutical industries and also offers materials testing equipment’s that are,
Exhibitor's Profile

TECHNO WORLD INSTRUMENT SERVICE

1. UTM (Universal Testing Machine).
   b. Test fixtures for determining the residual seal force (RSF).
   c. Determination of the breakaway and turning torque on screw caps.
   d. Point flexure test on snap off ampoules with breakpoint.
   e. Testing of paper, cardboard and corrugated cardboard.
   f. Series/parallel testing on syringes.
   g. Flexure test on needles.

2. MFI (Melt Flow Index).

1. Hardness Tester for medical equipment’s.

We have also the competency to provide after sales services to our clients by a specialized team of engineers.

Please let us know your specific requirements for us to provide cost effective solutions confirming to appropriate International standards via ISO, ASTM and EN.

We look forward to answering your technical queries with cost effective products and services.

Assuring you our best services and closest cooperation at all times.

Product Line: Trading Company (Instrumentation)

Technology Links is a private limited company incorporated in Pakistan in 1989. It is essentially a trading house which represents high quality instruments from manufactures all around the world. Its head office is located in Karachi and it has branches in all major cities in the country. With staff strength of over a hundred, and a management composed of highly qualified and experienced professionals, the company caters primarily to requirements in the health, research, technical and engineering education sectors. Thus, Technology Links is perhaps the only company in Pakistan, which provides meaningful links, under one roof, to the Educationist, Doctor, Scientist and Engineer alike. As well as this, the company supplies equipment and machinery related to industry and infrastructure development.

The company’s range of activities include the following:
• Indenting.
• Sales Promotion of specialized Products\Instruments.
• Installation and application implementation services.
• Provision of on-site training.
• After sales service.
• Engineering services related to implementation of projects.

The company philosophy is to maintain the highest possible standards while responding to customers’ needs. The company therefore, demands of itself and its employees the highest levels of integrity, performance and quality, and continuously seeks to improve its position as one of best companies of its kind in Pakistan.

Technology Links has divided it instrument ranges into Six divisions.
(i) Scientific Division. (iv) Material Testing Division.
(ii) Education Division.  (v) Projects Division.
(iii) Medical Division.  (vi) Energy Division.
Technology Links is a prominent distributor of globally renowned manufacturers and suppliers of advanced equipment catering to the needs of technical and vocational education, health, research, diagnostic, quality control, environment, petroleum and laboratory as also to the engineering faculties in the learning environment.

It takes pride in its impressive portfolio of having satisfied customers and successfully completing projects; thus making vital contribution in the development of Pakistan. We are proud to work with the following business partner.

Technoman (Pvt.) Ltd. is a leading Sales & Service Company that partners global
technology leaders to provide cutting-edge laboratory equipment and solutions to
the pharmaceutical, food, environmental and other industries, besides hospitals,
research institutes and testing labs.

Area of Expertise:
- Facility Monitoring: Continuous Particle Monitoring System, Portable and
  Handheld Particle Counter. Temperature/ Humidity, Differential Pressure
  Monitoring System.
- Material Analyzer: Handheld RAMAN/NIR Spectrometers for raw material
  identification & Handheld Metal Analyzer
- Chromatography: HPLC/GC instruments and consumables. (Specializing in
  all kinds of HPLC/GC & SPE Columns)
- Laboratory Sterilizers: 3 decades of experience in supplying maintaining and
  validation of steam and dry heat sterilizers.
- Tablet Testing Instruments: Disintegration, Dissolution, Friability and
  Hardness Tester
- Stability & Research Equipment: a wide range of all laboratory equipment is
  available.
- Check Weigher Systems.

Services:
- Experts in Temperature Profiling: According to WHO guideline.
- Validation of Instruments: Climatic Chamber, Incubators, Oven, Freezer,
  Autoclaves, Steam Sterilizer, Dissolution Apparatus, Sterilization &
  Depyrogenation Tunnel, ETC
- Calibration of Instruments: Autoclave, Oven, Dissolution, Disintegration,
TECHNOMAN (PVT.) LTD.
Hardness & Friability Tester, Rotatory Evaporator, Air Sampler, Particle Counter, Incubator, Climatic Chamber, Temp/RH Data Loggers, Centrifuge, & Many more..

Technoman possesses its own Particle Counter Calibration Lab which is the only one of its kind in Pakistan. Besides, we have our own R&D and IT Departments to provide customized hardware/ software solutions that integrates seamlessly with our world-renowned products. Our qualified and skilled personnel have the expertise to cater to the most challenging of needs and our after sales service is renowned for its reliability and promptness..

Our strength lies in our technical skills, competitive pricing and professional approach which has given us a long list of satisfied and loyal clientele in every part of the country.

Who we are

AHS is located in Lahore & is the largest independent supplier of single use medical supplies to health organizations within the Pakistan, Middle East, European & African Countries.

Today, the company has put the key components in place to create a strong, inter-connected, integrated multi-vertical and multi-brand private healthcare network with the scalability and flexibility to grow our operations in the future. We have gained an outstanding reputation in the region by lowering the costs of owning and maintaining medical equipment’s for our clients & making us one of the best in Lahore. We achieve this by providing world class customer service and superior technical support to all who entrust themselves into our care.

Our highly skilled technical department is filled with our own employees who have the experience and capability of all Types of Medical Equipment’s. Our goal is simple; to be the number one service company in the regions we cover. To obtain this, we have a large stock of parts in our warehouse supported by a sophisticated supply chain that spans the globe. Through our AHS Division, we represent various US and European Manufacturers providing our clients with new technology, thus advancing healthcare in the markets we serve. In many cases, our clients may not have the fiscal budget necessary to obtain the latest technology.

With sole distributorships with leading manufacturers from around the world, AHS hold sufficient stocks for an immediate delivery from a “one off” order to a full shipment AHS will maintain its personal service.

Leaders in manufacturing of precision plastic parts now offering world class Healthcare Packaging Products.

PET / HDPE / LDPE / PP Containers for Eyedrops, Syrups and Tablets

Major Features & Benefits to the Customers:
• Eye drop bottles produced under aseptic environment, needs no further sterilization.
• Syrup bottles production under clean room eliminates pre cleaning process at filling machine.
• High quality bottle printing eliminates label pasting after filling.
• Specially designed leakage seal ensures zero leakage, without additional in-cap seal/heat seal process.
• Innovative two piece pilfer proof seal protects counterfeiting.

Manufacturing under Technical Licence of OHSUNG Korea

Under the umbrella of a very strong & reputable group, product quality & suppliability is ensured, while the use of medical grade plastic is guaranteed.

VISION

Since the very first installation, our commitment stems from a vision: efficient healthcare equipment with the patient quality of life at its heart.

Our everyday work is our contribution to the dream of creating hospital spaces in which doctors, nurses, technicians and operators can work with utmost precision with our equipment allowing them to offer the best diagnosis and services to the patient.

HISTORY

In 1996, Mr. Munir Ahmed, founder of BIOS, started with extreme vigor and determination a small service provider company to selected few government-run hospitals in Sindh. Prompted by his intuition and proactivity the company was able to install its own 100mA Mobile X-Ray machine at Liaquat National Hospital in 1997.

In 1999, BIOS won its first government project tender amidst stiff competition from well reputed and old companies. This proved to be the stepping stone for many similar projects in the future in which BIOS became successful.

In 2004, BIOS opened its first branch office in the largest city of Punjab, Lahore. Since then BIOS has been tending to business, customers and providing services to central and southern Punjab from there.

In 2006, the capital city of Pakistan, Islamabad was targeted and a branch office was established over there. This really allowed the company to focus on Northern Punjab, parts of KPK and Northern areas of Pakistan from there.

In 2009, first non-digital fluoroscopy system installed from Stephanix, France.

In 2013, became the bronze sponsor for Health Asia Exhibition held annually in Karachi’s Expo Center.

In 2014, due to the exponential growth of the company, BIOS’ head office was moved to a much larger facility.

In 2017, first X-Ray machine installed in Skardu, Gilgit Baltistan.

In 2018, first state-of-the-art Digital Fluoroscopy System installed from Stephanix, France.
Injectable Compact Line

TRUKING KLF Series Powder Vials Compact Line for Cleaning, Sterilizing & Drying, Filling & Sealing

TRUKING

ALXL Series Ampoule Compact Line for Cleaning, Sterilizing & Drying, Filling & Sealing

- Lincomycin HCL
- Neomycin Sulfate

**ANTI-MALARIAL**
- Artemether
- Lumefantrine
- Sulfadoxine
- Pyramethamine
- Doxycycline Hyclate
- Chlorogum Phosphate

Packaging Materials

- Aluminium Blister Foil
- Aluminium Strip Foil
- Alu / Alu Cold Forming Foil
- Paper Laminated Aluminium Foil for Sachet
- Triplex Aluminium foil for Sachet
- Aluminium Laminates for Tooth Paste
- 12 Micron Soft Aluminium Foil
- Rigid PVC Film
- Rigid PVC / PVDC Film
- PVDC Coated Paper for Blister
- Child Resistant Packaging for Blister
- Counterfeit Solutions
- Holographic Solutions
- Rubber Stoppers
- Dropper Bottles
- Flip Off Seals
- Glass Vials
- Polycrystalline Paper
- Stand Alone Pouches with Spout / Zipper

and many other products Offering from Import & Ready Stock

LEADING INDENTING FIRM
OF PAKISTAN

PHARMACEUTICAL RAW MATERIAL

Gudia started off in Pharmaceuticals by introducing API's (Active Pharmaceutical Ingredients) and Excipients from renowned foreign manufacturers for leading multinational companies. Today the list of products, suppliers & buyers is grown many folds and we are reckoned as first choice when it comes to providing quality raw materials from trusted sources besides providing extraordinary services to our partners.

We offer API's in all therapeutic categories like:

<table>
<thead>
<tr>
<th>Antibiotics</th>
<th>Anti-hypertensives</th>
</tr>
</thead>
<tbody>
<tr>
<td>Anti-allergic</td>
<td>Analgesics</td>
</tr>
<tr>
<td>Anti-depressants</td>
<td>Antiviral</td>
</tr>
<tr>
<td>and many more...</td>
<td></td>
</tr>
</tbody>
</table>

PACKAGING MATERIAL

Expansion to pharmaceutical portfolio comes perfect with the addition of packaging material to our list of offers to valued customers.

Some of the categories we are serving include;

<table>
<thead>
<tr>
<th>Empty Hard Gelatin Capsule</th>
<th>Aluminium Lids</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aluminum Foil for Blister Packing</td>
<td>PP Caps</td>
</tr>
<tr>
<td>Cold Formable Aluminium Foil (ALU-ALU)</td>
<td>Infusion Glass Bottles</td>
</tr>
<tr>
<td>Laminates for Sachet/Pouch</td>
<td>Ampoules</td>
</tr>
<tr>
<td>PVC/PVDC Films</td>
<td>Glass Vials for Injectable, Glass Tubes</td>
</tr>
<tr>
<td>Rubber Stoppers for Injectables</td>
<td>Others</td>
</tr>
</tbody>
</table>

MACHINERY

At GUDIA, Pharmaceutical Machines and Equipment are thriving on efficient leadership, engineering excellence, cutting-edge technology and professional approach. The machinery & equipment available are of all types & sizes for manufacturing of Tablets, Capsules, Ointments, Liquids, Dry Powder, Injectables, and Lyophilizers (Freeze Dryers) etc for Pharmaceutical Industry.

<table>
<thead>

</table>
Linsen Group was founded in 2003 which has 1 design center, 1 overseas center, 2 engineering companies, 3 factories bases in China. Linsen Group can provide cleanroom turnkey project, such as cleanroom system and cleanroom stainless steel equipment (produced by Linsen Group’s own factories), HVAC system (HEPA filters OEM for Camfil brand), Auto-control system, etc.

**Products:**
- 100/76 series of air return wall
- HPL panel
- 50/75/100 Sandwich panel
- Cleanroom door and window
- Air shower
- Pass Box
- Dispensing / weighing booth
- HEPA filter with box / Medium filter

Make A Pledge
Take Out 5 Minutes For Yourself

Breast Cancer is the most common cancer in women, worldwide. Pakistan has one of the highest incidences of breast cancer in Asia. You can detect breast cancer in time and start appropriate treatment.

❖ Women under the age of 40 should carry out monthly self-examination.
❖ Women over the age of 40 should get yearly mammography screening.

Prevention may not be in your hands, early detection is.
